

Screaming Monkey Boner "All The Wrong Ideas"

I've waited so long, and now I've got my chance
To sing my own song, and dance my little dance
So won't you come along and we'll ourselves some fun
For I've got all the wrong ideas, and the drive to get
things done

Cause and effect are lost on more than some
They never suspect that there is only
One way to circumvent the path that leads down the
barrel of a gun
But I've got all the wrong ideas, and the drive to get
things done
The drive to get things done.
