Every time you're alone in the night
Some kind of nightmare put you uptight
An' it's so bad when you meet it in the Streets
It's gonna get you an' it's gonna get me...
The fuckin' world turns 'round 'n' round
Get to the Pit: soon you're pushed about!
Here's your Disaster, nothin' left to say
All you can do is fight your way!
Liars! They just mean nothing!

An' every time you're alone in the day
Some kind of bad dream put you on my way
Searchin' for answers, you found out the Light
Do you still wanna leave the world behind?
We've got the Reason! We've got the Right!
No modern nightmare's gonna put you uptight!
It ain't so bad when we meet in Streets:
Born to lose, we live to win!
Liars! They just mean nothing!

Posers! They're falling apart! Posers! Step back to the
Start!
When Metal was Metal, and Violence was Fun!
Nu Posers don't scare Anyone...

The fuckin' world turns 'round 'n' round
Get to the Pit: soon you're pushed about!
Here's your Disaster, nothin' left to say
All you can do is fight your way...
And the best is yet to come
Hear the drumming: here's another Song!
Do you still wanna leave the world behind?
We've got the Power, we've got the Bite!
