Hey son there seems to be some confusion this ain't a
competition
just an exploration
Hey boy there's been an altercation something's been
the problem
we think you've filled out the wrong form

Yo sista there's been a disagreement we think that you
should leave it
we think its for your own good.
Hey sista who's that guy your round with was he
overrated i made it
my business

Don't you, (don't you)
Talk to me like that, (talk to me like that)
Talk to me like that, (talk to me like that)
Talk to me

Don't you, (don't you)
Talk to me like that, (talk to me like that)
Talk to me like that, (talk to me like that)
Talk to me

Don't let them talk, treat you like that
Don't let them talk, treat you like that
Don't let them talk, treat you like that

Don't let them talk to you down to the ground

Don't let them talk, treat you like that
Don't let them talk, treat you like that
Don't let them talk, treat you like that

Don't let them talk to you down to the ground

Hey people its all been taken care off with had the
consultants in there
we think that you'll like what we've done

Hey people come to the big lunch party, we'll have

lunch on friday and
you'll sign up on sunday

Yo sista there's been a disagreement we think that you
should leave it
we think its for your own good.
Hey sista who's that guy your round with was he
overrated i made it
my business

Don't you, (don't you)
Talk to me like that, (talk to me like that)
Talk to me like that, (talk to me like that)
Talk to me

Don't you, (don't you)
Talk to me like that, (talk to me like that)
Talk to me like that, (talk to me like that)
Talk to me

Don't let them talk, treat you like that
Don't let them talk, treat you like that
Don't let them talk, treat you like that

Don't let them talk to you down to the ground

Don't let them talk, treat you like that
Don't let them talk, treat you like that
Don't let them talk, treat you like that

Don't let them talk to you down to the ground
