Every little word that you say to me

Keeps my heart on time

Red blood flowin' like a rough rapid

When you are near by

Ain't no doubt 'cos it's plain to see

You set my soul on fire

Something so true

Is what I get from you

An' I hope that you'll see

You get the best of me

[2 TIMES]

Oo wee

Most generous love, you spread around

To the people in your life

Sharing the weight and the pressure

Just to make it right

I hope one day that you get it back

If that karma stuff is true

Here's a little song just to make a start

Called something so true

Something so true

Is what I get from you

An' I hope that you'll see

You get the best of me

[2 TIMES]

Oo wee

Something so true

Is what I get from you

An' I hope that you'll see

You get the best of me

[2 TIMES]

Oo wee

Oh yeah...

It's so, so true

[4 TIMES]
