Greed is the killer
And green is the colour you desire
Aggression at cost
You fill up your pocket
then your hatred fuels the fire

Oh...

Don't be so cold
(Don't be so cold)
Don't be so cold
(Don't be so cold)

Take it or leave it
(well) You make the choice for us
Than you silence people's voices
(and) now we experience,
cause and effect!
The victims of profit
(oh) we cannot forget

Don't be so cold
(Don't be so cold)
Don't be so cold
(Don't be so cold...)

So cold...

We should find the answer lies... (with love)
We should find the answer lies... (with love)
We should find the answer lies... (with love)
We should find the answer lies... (with love)

We should find the answer lies... (with love)
We should find the answer lies... (with love)
We should find the answer lies... (with love)
We should find the answer lies... (with love)
