"Kill For Peace"

Visit "Kill For Peace" on MotoLyrics.com

nothing ever really scared me
but now I'm deathly scared of war
you should love or you should die
a million people killed by war

no one ever really loved it
but this time it has gone too far
you should never join the army
a million soldiers killed by war

you wanna live you wanna die
join the army get killed by war
you wanna be someone in life
don't get killed by the train of war
nanananananananana
nanananananananana

from now on you are to be happy
every single second time
don't wanna be a freedom soldier
kill for peace and peace will die

you wanna live you wanna die
join the army get killed by war
you wanna be someone in life
don't get killed by the train of war

you wanna live you wanna die
join the army and get killed by war
you wanna be someone in life
don't get killed by the train of war
