"Between Time"

I've been loving this guitar since a long long time
Just trying so hard to find
Just where I've been and we're I'm going
Got to keep that inside of my mind

Well it's alright
Cause it's alright
Alright

Well the rhythm of the music running through your soul
Well you ain't got time to grow old
And the stars will lit and the sun will shine

And you just gotta get it on

And it's alright
And it's alright
Alright

No I won't take long just to sing my song cause I gotta
Get on my way
When the sky is blue and the times are great and you
just
Gotta get it on

Well it's alright
Cause it's alright
Alright
