i am alive i am here i am now i acknowlege the fact of
my life i am alive breathing walking and smiling
acknowledge the fact of lmy life there's a big big world
out there thime that i stepped in 'cause i'm getting
tired of pretending that i don't really give a shit there
was guilt and shame there was fear and hate but now
it's finally time to appreciate the perfection of all life all
the times and places and time i'd waste i learned the
hard way and ever since when i look forward or back i
just gotta laugh 'cause it hit like a ton of bricks i laid
down on the ground and i looked around and i saw a
miracle i appreciate the simple beauty of the world it
came to me like a bullet to the heart but it was there in
front of me all along so obvious the only meaning of
life is life itself i'm not controlled by anybody else i
must get out of my way get out of my own way
