i got a call last night from warren somebody told him
his band is boring warren was crying, he felt so bad
cause the punks don't like his bell-bottom pants
experience the ozzfish i went to a party, brought a tape
of their tunes it drove everybody out of the room
ozzfis just ain't cool anymore cause ozz don't listen to
any hardcore some people might say i got no taste
they say the band sounds like shit cause they don't
have a bass some people might say i got no brains but
ozzfis is driving my neighbors insane
