your parents think im crazy say that i am outta control  
they say i dont look normal i dont do what i am told  
society they would wipe the stupid grin right off my  
face  
now my arms are tied behind my back and my minds in  
outer space  
in the hospital(x2)  
thorazine for breakfast and ridalin for lunch  
i sit inside the day room and i watch the brady bunch  
my life was oh so normal making baskets and pottery  
till the lunatic three doors down drank a bottle of  
listerine  
in the hospital(x2)  
repeat verse two
