Another cop another gun
Another way to end me fun
Another fucking powergame
Hate the law enforcement name
Black and white and gold and blue
My good time is a job for you

Do you enjoy the fear you cause
By pulling out your book of laws
Without me you would have no job
Your full of shit you macho cop
Installing paranoia in
So called protected citizens

Another badge a riot stick
Another chance to get your kicks
Sworn to serve and to protect
Don't ever ask for my respect
Got picked on when you were a kid
Don't take it out on me you dick!

Police Insanity don't take it out on me (X2)
