

Screeching Weasel "Wanna Die"

Visit "[Wanna Die](#)" on MotoLyrics.com

I sit and watch the TV news
To see If I can find some clues
I know the world is all fucked up
But it looks so slick in a one minute spot

Wanna Die (x3) I don't wanna live

I go to school - what a fucking joke
Tellin me things I don't wanna know

They don't give a shit about me at all
My teachers have got me by the balls

There's no reason to live anymore
We're all gonna die in the third world war
They try to train me by society's rules
Well fuck em all and fuck you too
