What?

Screwball

First blood

When I die bury me

Hang my balls from a cherry tree...

Aiyyo, fuck everybody and everything

I'm puttin my balls on the table while you swingin ya  
ding-a-ling

I'm here to take back what's mines, I sold dimes

On the block ? evading? the cops, opened outta town  
spots

Meanwhile, otha niggas slipped in through the back  
door

Now them niggas swear that they raps raw

I'm not feelin 'em, my rap style killin 'em

From the eighties to the millenium

Ask about poet, niggas say "yeah, I remember him"

Black hoody, army pants, stay wearin timberland

Qb ot, regulate thoroughly

The only one who represented heavenly

Had a whole borough ready to bury me

Yeah, you remember that, if you don't you was on  
similac

[kyron]

Now you trapped up in a cipher with wild wolves that  
need to eat

I chew ya dogs up and spit out they white meat, son

I'm having visions of ya ending and it's not sweet

It's gettin crucial, dead you and the niggas that  
produce you

Yeah it's conflict with the screw

Confined in the industry, but now I'm speacking to a  
few

Individuals, now you fell I'm talking to you

Go ahead, press the issue, I'm qb official

Screwball authorized spit anotha one to prove it's  
organized

Check the archives, we copped pies

Got true street ties, ninety nine wise guys

Feel for the state, hit 'em right between the eyes, what?

Chorus: poet

Now it's first blood, hurt thigs, burst slugs  
Dirt thugs, screwball the worst thugs  
First blood thirsty, what, coming to do y'all  
Blew y'all back to the wall, and gave it to y'all  
Now it's first blood, hurt thigs, burst slugs  
Dirt thugs, screwball the worst thugs  
First blood thirsty, what, coming to do y'all  
Blew y'all back to the wall, and gave it to y'all

[kl]

Yo, hey yo, yo  
I told you don't fuck with me I got jedi  
Mind control with two nines with red eye  
Aiming at'cha ? chedda?  
Gettin off the bourbon rockin the turbin  
Swervin ? ? ? eating cats in slow-mo  
Like higher learning, feel a burning  
World turnin indeed  
So one day they gonna have to hand it to me  
"cause I'm a legacy  
Flesh and bone chewin, livin  
When a nigga take my kindness for weakness aside  
givin

[hostyle]

Hey yo, yo  
Yo screw, we got some drama to attend to  
Watch me bend you to a pretzel (man, saayzzz who? )  
Hostyle 'bout bless you, anger I ventilate  
With a banger I penetrate deep in your flesh meat  
I'm foul with this, street analysis  
Need to politic every twenty four  
More money, money mo'  
One mans poison is anotha mans sweetness  
Striking at ya weakness, knowin all your secrets
