{{Female Chorus}}

Leaving behind all my love for you
how you betrayed my trust
trapped in my anguish and all you left behind
now I'll do what I must

Your voice keeps haunting me
it echoes in my mind you see
I'm losing all my sanity
{{both male and female}} Since you left me
Is that you calling me?
It's not as though I'm waiting here
I've moved on and I'm great you see
{{both male and female}} Since you left me

{{female Chorus over the following male vocals}}

Leaving the memories behind
moving forward to find
the truth I learned to disguise
to become someone new
trapped you inside of my mind
but I must learn to survive
without those echoes inside
and do what I must do

I wonder if you think of me
the wreck you survived and left behind
I know you've not forgotten me
Since you left me

{{Both Male and Female Chorus}}

Leaving everything
the joy and pain it brings
leaving behind
leaving everything
Leaving the memories behind
moving forward to find
the truth I learned to disguise
to become someone new
trapped you inside of my mind

but I must learn to survive
without those echoes inside
and do what I must do

{{Both Male and Female Chorus}}
