Fasten me to your side  
Please don't leave me behind  
Let the rain fall before I do  
Hidden in the dark where I search for you  
(I see lightning I hear thunder)

{chorus}  
Inside of me is a place I wish to be  
Can you help me find the way?  
Can you save me from the rain?  
I know that I'm the only one that's left for me  
But I need someone to free  
All the hurt inside of me

How I need you right now  
You've forgotten me somehow  
If I see you you'll remember  
I swear that's when I will surrender  
(I see lightning I hear thunder)

{chorus}

The storm is over me now  
Like the rain I feel myself falling down  
Hidden in the dark where I search for you  
Let the rain fall before I do

{chorus X2}
