Jeezy didn't work for NASA, but the V did  
For a couple summers in the VMS building  
Vertical Motion Simulator participant  
The Silicon Hustler's intro to the discipline  
With a swagger so fly  
I been around the world and Aye, Yay, Yay  
Used intelligence to make it, not break it  
Yes, Sir. That's why the V is never fakin'.  
On the West Coast, it's the Apple of my eye  
Make a lady's life so secure like Verisign  
Among the Eucalyptus, I've been around the Cypress  
Semiconductors give me energy to write this  
From the tried & true, I'm strategically aligned  
Check me up on stage ? my Materials Applied  
From Flextronics to Arrow Electronics  
I'm a verbal vet from my ventures into Hi Tech

In any industry the V utilizes knowledge  
So there's never any Gaps in my thought process  
Intertwine logic like LSI  
With jargon like this, you can tell that it's I  
The V. In the day, big man on campus  
Sr F/A. Just a matter of Symantecs  
Dynamic-ally manipulate words like Photons  
Any kind of beat, I'm down to drop a fly flow on  
From here to Frisco, finish off some Cisco's  
And watch out fo' the po-po in vehicles that sit low  
Never got the Intel from an Oracle  
But even Ellison can't touch this individual  
In Biosystems, I'm Applied like DNA  
You can see I'm Intuit, surfen' Openwaves  
I can network like Omidyar at Ebay  
Or KJ at Juniper right up to present day

Take me away cuz I need an escape  
Like Nell Carter so just gimme a break  
I'm Positive K, they got me workin' on the Nightshift  
Trade it for a puff-puff on a nice spliff  
To the left - S W E E T  
Then to the right - H I P H O P  
The V is in Caps so I put it on lock

100 words per minute as the clock tick tocks  
Check one-two, the V be mike testin'  
All up in the scene I get returns on my investments  
And monitor 'em closely so I never lose  
What your boy's accrued cuz I'm done payin' dues  
Starin' at the keys I get play like a piano  
Soprano in my own right ? trophies on the mantle  
A S D F ? J K L;  
Control-Alt-Delete ? Shut Down and I'm rollin' to the next  
gig
