Yeah, its a remix  
p-money on the beat  
you know how we do it  
this my girls song  
so girls listen up  
this is about my lady  
she knows who she is  
Aye yo  
lets do it

When im with you i feel  
I can do anything  
I can just spread my wings  
I can just say some things  
Because i feel comfortable  
When im around you girl  
So we can do whatt you like  
It's me and you against the world  
Ever since the day you came  
I have'nt felt no pain  
Ill never be the same  
Now i know i love you

More than all my kicks  
More than all my clothes  
More than all my friends  
More than all my flows  
More than everything

You were there for me  
Just like you'd said you'd be (Just like you said it)  
Through my darkest day  
My coldest night  
You'd hold me tight  
You said id be alright  
I wish i could turn back time to when you were mine

(Thats my lady)

Two words  
Me and you  
Lets just gets away

Far away from it all  
Lets find a better day  
Everythings alright  
We talked all night on the phone  
Lets go just us all alone  
I know i was unsure before but now i see  
I love you more

More than all my kicks  
More than all my clothes  
More than all my friends  
More than all my flows  
More than everything

You were there for me  
Just like you'd said you'd be (Just like you said it)  
Through my darkest day  
My coldest night  
You'd hold me tight  
You said id be alright  
I wish i cud turn back time to when you were mine

I never thought you wud be  
Everything that i need  
Everything that i ever wanted  
In you i can see  
And then we made love  
From the car to the house  
To the hall on the wall  
From the floor to the couch  
Then i went away on tour  
And you said you missed my touch  
I reply i love you  
And you asked me how much

More than all my kicks  
More than all my clothes  
More than all my friends  
More than all my flows  
More than everything

You were there for me

I love you  
Move than all that  
More than everything  
My lady  
(my lady,my lady my lady)
