Let me explain this life to you
In what we believe, where we are going to,
Let me fly with you.
Open these doors of lights for me
And we can enter in new life and see
That we must change...

Let's make all people know
We're ready to show,
That we can win and be kinder...
Oh no, we cannot allow
That it will be slow...
We must change our life in the world

Let me explain my feels to you,
The world is gone worse, you know that is true.
But we can change it with you...
Wake up and give a smile to all.
We must be kinder, and break the walls
And we must change...

Let's make all people know
We're ready to show,
That we can win and be kinder...
Oh no, we cannot allow
That it will be slow...
We must change our life...

Let's make all people know
We're ready to show,
That we can win and be kinder...
Oh no, we cannot allow
That it will be slow...
We must change our life in the world
