GREEN: Now I know to love you  
FEMALE: Is not to know you  
GREEN: Oh I got too near to you  
Oh, in the court of contempt  
I have to tell you  
FEMALE: One thing I'm certain  
GREEN: I've been overtaken, girl  
Oh, by the need to be loved

We don't have forever  
FEMALE: To find a reason  
GREEN: How I lost the will to love you  
Out in the way of the world  
Maybe I could see you  
FEMALE: When this is over  
GREEN: Maybe when our hearts are healed  
Oh what a day to behold

FEMALE: There'll be a day, lovers away  
(You can) call me and mend a broken heart  
There'll be a time long after mine  
(He will) call you and mend a broken heart

GREEN: Not a lot to say now  
FEMALE: Except I miss you  
GREEN: Not a lot to take your place  
Oh, in the heart of the boy  
Ooh a little knowledge  
FEMALE: Is so exciting  
GREEN: You became a part of me  
Oh, and the world that we knew

I guess it's a sickness  
FEMALE: That keeps me wanting  
GREEN: Ate away the heart of me (heart of me)  
Oh, and the heart that I loved  
Still beyond believing  
FEMALE: In love forever  
GREEN: Quite the brightest star, girl  
Oh, in the reason of sleep

FEMALE: There'll be a day, lovers away  
(You can) call me and mend a broken heart  
There'll be a time long after mine  
(He will) call you and mend a broken heart

GREEN: Listen to her say

FEMALE: Got a little radio  
Held to my body  
I can feel your back beat boy  
GREEN: Moving a muscle of love  
FEMALE: Turn it up and press it  
I don't understand it  
I can feel your message boy  
GREEN: Calling me over and out

Here's a verse for nothing  
FEMALE: An introduction  
GREEN: To the way the world will be  
Now we're apart and alone  
Mustn't be unhappy  
FEMALE: When you remember  
GREEN: Lovers never lose each other  
Oh, such a lot to be learned
