Gonna get that girl and show her the time of my life
Gonna get that girl and show her the end of the world
Maybe I'll be the one thing she needs when I've found
her
And worn your world away

Gonna get that girl and show her the time of my life
Gonna get that girl and show her the end of the world
She could be free of all that she sees when I've found
her
And worn her world away

We'll believe now... in nothing at all
Nothing compares with the love of the one for
All we are now... and ever could be
Somewhere the forces of love come to disagree

Gonna give that girl a present that never arrives
Gonna give that girl a future that's hard to believe
Maybe I'll be the one thing she needs when I've found
her
And worn your world away

Gonna give that girl a present that never arrives
Gonna give that girl a future that's hard to believe
She could be free of all that she sees when I've found
her
And worn her world away

We'll believe now... in nothing at all
Nothing compares with the love of the one for
All we are now... and ever could be
Somewhere the forces of love come to disagree
