RAPPER: Hey, what you want, baby?  
Ha-ha, it's what you need, baby  
Ha, what you feel baby?  
Ha-ha, I got all of that  
True indeed indeed indeed  
I got it, ha-ha  
I got it, yeah yeah  
I got it, I got it, I got it

GREEN: I got a Smith 'n Slappy grind for you (what you got now?)  
I got your payment here in kind for you (what you got now?)  
I've got a piece of never mind for you (how'd you get that?)  
I've gotten over underlinin' you in red

RAPPER: Recall Marley dealin' it, big willin' it  
How you feelin' it? Watch the snow bird gonna fly the whole world  
Speak with forked tongue, and the beating down the war drum  
In your schemes and dreams of fortune walk one  
Caution! keep the chin up, blink the eye out  
Keep the infidel with the wishing well to dry out  
Find out they only lie about what they cry out  
Architect-designed but psyche psyche their mind out

Time out, expect that, correct that, check that  
They put you on a setback, bounce like a jet pack  
Promises and guaranties by modern day pharisees  
They use familiarity to push peculiarity  
Bubblin' hot, trouble 'n spot, bomba claat  
Kids framin' the biz, claimin' they is what they're not  
Most definitely Scritti Politti on the dot  
Me and Green on the stage, get you need, so we got

GREEN: Come 'n rock-a me now  
Come and teach your teacher how  
Come 'n shock-a me now  
Gonna show the people how (c'mon bring me party)

Come 'n rock-a me now  
Come and teach your teacher how  
Come 'n shock-a me now  
Gonna show the people how (c'mon bring me party)

I've got a dark and canine day for you (what you got now?)  
I've got tomorrow put away for you (what you got now?)  
I've got the tokens here to pay for you (how'd you got that?)  
I've got a not a lot to say for you, surprise

RAPPER: Most definition, got more lines than a petition  
Lay you flat, break the track in half, like intermission  
With the raw rap, got your back like raw strap  
International like them pancakes, toss that  
World travellin' unravellin' the mystery cats who're  
dissin' me  
Get the boot like Italy, when I land like Sicily  
It'll be considerably warmer in the spot for those who  
got bad karma  
I'm gonna put it on you but for now

I'm just chillin' 'cause I got that feeling  
If it don't move you then you're numb like penicillin  
Full committee with Politti, main objective gettin' busy  
From the shores of Green Medina to the home of  
Sarafina  
To the stairs of Catalina, everywhere inbetween that  
I'll make your whole denomination react, believe dat  
Ooh we at, top of the dial, rocking your file  
Sound clash number one to wear, this is how we're  
runnin' it

GREEN: Come 'n rock-a me now  
Come and teach your teacher how  
Come 'n shock-a me now  
Gonna show the people how (c'mon bring me party)

RAPPER: Movin' out like, what it sound like?  
Competition gets speechless in my thesis  
Resonatin' like the atco from the macho  
Getting busy from the get-go from you pet show, rough  
or gentle  
You recognise it's something special  
Acapella instrumental, all essential  
Use my pad and my pencil to draw the mental  
Got a number one again, yo, tell ya can't fall, bring it in  
bro'

GREEN: Come 'n rock-a me now  
Come and teach your teacher how  
Come 'n shock-a me now  
Gonna show the people how (c'mon bring me party)
