Get you girl - a part of this world
Take it and show you
Nothing is ever what it seems
Get you girl - a matter of fact
Teach you a lesson
Nothing is ever more than dreams

You got it girl with the sugar and spice
Story of a love in a lost paradise (another day baby)
Hot and the sweet girl - a word of advice
Hit me up with a shot of the sugar and spice (anyway
baby)

Let you girl - alone to believe
In a measure for measure
in a three standard stopages for you
Get you girl - a test of your love
Don't try and tell me
How tough at the top it is for you

You got it girl with the sugar and spice
Story of a love in a lost paradise (another day baby)
Hot and the sweet girl - a word of advice
Hit me up with a shot of the sugar and spice (anyway
baby)

Get you girl - the best of both worlds
Do the puppy dog for me girl
Sugar and spices here for you
Get you girl - got a way to make it better
Take it and show you
Sugar and spices here for you
Do the puppy dog for me girl
Sugar and spices here for you
Get you girl (sugar and spice) - the best of both worlds
Take it and show you
Sugar and spices here for you
Get you girl.
