I wake up in the morning and I'm tucked up in my bed I
remember what you said to me and I wish that I was
dead.

Why you have to say those things you my make my
heart ache
my heart is now closed to all around cause of what you
said
(Chorus)

My heart is cold from the wind off the sea.
you are gone from my sun now baby
You never see me again your textins rude and bad so
take your boots off somewhere else baby your gone
out my life.
du du du fu du du fu fu la la la la
la.

Don't you tell me you ain't done nothing don't lie you
fool.
your making your making my life hell.
(chorus)

My heart is cold from the wind off the sea.
you are gone from my sun now baby
You never see me again your textins rude and bad so
take your boots off somewhere else baby your gone
out my life.
du du du fu du du fu fu la la la la
la.
