Phone rings at a quarter to nine

Some crazy girl is on the line

Talkin' bout how I better recognise

Found my phone number in his Calvin Klein's, and I'm  
like

What's that gotta do with me?

Your man is the one who needs questioning

Cause there ain't nothing that you're gonna achieve

By calling me and giving me the third degree

And if he's your man then tell me, why was he sweatin'  
me?

All up in the club last night

Telling me I'm the type of girl he likes

If you say you don't believe he was acting that way

Girl I wish you could've seen how your man was shakin'  
me

CHORUS:

Girlfriend let me give you somethin'

I know that you love him but you should have saw him  
last night

You ain't his girlfriend anymore than I am

I know you see him

But girl you really should have saw him last night

Oh no no you didn't say that I need to back away

I thought you heard when I told you that it ain't my fault  
if he wants you back

All that's been said to me, it don't really mean a thing

You need to realise that I'm not the one you should call  
with an attitude

And if he's your man then tell me, why was he freakin'  
with me?

All up on the floor last night, saying things I know you  
wouldn't like

But you say you don't believe he was acting that way

Girl I wish you could've seen how your man was shakin'  
me

CHORUS

Did you really think your man was down for you?

Did you really think that his love was true?

If you had been loving your man right

He wouldn't have been puttin' it on me all night

You weren't his girl last night

CHORUS
