Hey what you gonna do with your life?
(What you want, and what you gonna do son?
(I'm gonna make you stay at home and study every
night(
Cuz I don't owe a damned thing to you(
I said get up, back up right out of my face
(Cuz that's some BS you are trying to sell me dad
(If you really think I wouldn't make it out on my own(
Well I think that you can go to hell

He said... (
You're like a bad, bad social disease such a waste
could have been such a winner(
And I hate to give up but I've just had enough(
So I gotta give you up before you go and drive me
mad(
You're like a bad bad social disease, you come off like
a saint little sinner
(I don't want to give up but I've just had enough(
So I gotta give you up before you go and drive me
mad(
You're like a bad, bad social disease(
Bad, bad social disease

Well...
(See you later alligator, I'm gone(
And I don't really want you coming to find me(
I've got a one way ticket to an easier life(
And in a month or two you're gonna see
(Ya you outta get up, get up right out of your seat(
And take a bite of all the garbage you feed me(
Though you say I drive you crazy cuz I'm different than
you(
You're a fool, you're not that much different from me

You're like a bad, bad social disease such a waste
could have been such a winner(
And I hate to give up but I've just had enough
(So I gotta give you up before you go and drive me
mad
(You're like a bad bad social disease, you come off like

a saint little sinner
(I don't want to give up but I've just had enough(
So I gotta give you up before you go and drive me mad
(You're like a...

You're like a bad, bad social disease such a waste
could have been such a winner(
And I hate to give up but I've just had enough
(So I gotta give you up before you go and drive me
mad(
You're like a bad bad social disease, you come off like
a saint little sinner
(I don't want to give up but I've just had enough
(So I gotta give you up before you go and drive me
mad(
You're like a bad social disease(
Bad, bad social disease
(Bad social disease(
Bad, bad social disease(
Bad, bad social disease(
Bad, bad social disease
