Break down
Face down(
This is the story of the end

I don't need you to call
(I'll make it impossible to find me
(Go on and believe it's nothing at all(
Aren't you sick of promises that I break?

Come on, Come on(
Think you've got me figured out(
You're wrong, you're wrong(
I am so tired of sitting round(
Go on, go on, just move on(
Now you're nothing to me

Breakdown(
We fade away(
Like a hurricane it's all gone without a trace
(Face down(we suffocate(
This is the story of the end
(This is the story of the end

Whatever you wanted, needed
(I was there for you(
You made me believe in something
(I was such a fool

Come on, Come on(
Think you've got me figured out(
You're wrong, You're wrong(
I am so tired of sitting round
(Go on, go on, just move on(
Now you're nothing to me

Breakdown(
We fade away(
Like a hurricane it's all gone without a trace
(Face down(we suffocate(
This is the story of the end
(This is the story of the end

You're out of your mind
(You'd better believe I want you out of my face
(I'm gonna leave you behind(
You thought you could fake me(
But it's me you forsake(
And now you got no more chances with me
(Ya with me(
Ya with me(
Ya with me

Breakdown(
We fade away(
Like a hurricane it's all gone without a trace
(Face down(we suffocate(
This is the story of the end
(This is the story of the end

You don't mean nothing to me(
This is story of the end(
You don't mean nothing to me(
This is story of the end(
You don't mean nothing to me(
This is story of the end(
You don't mean nothing to me(
This is story of the end

You thought that you had me wrapped around your
finger
