I saw you try
I saw you trust noone
I saw you cry
I saw you waste your time

I tried to talk
You said
"I try to listen to you"
I tried to scream
You said
"I want to listen to you"

You said:
Push me higher
Now I've got something to say
Now I've got something to show you
Please trust my world
You know my days are not complete
You know that love is all I need
To breathe

I feel your blame
I hear you say your name
I'm trying to help
I'm trying to stop this game

LET ME TALK TO YOU

I tried to talk
You said
I try to listen to you
I tried to scream
You said
I want to listen to you

Let me talk to you first
