Time's a therapy

TRUST
CARE
DREAM
LOVE
TRY
FEEL
THANK
LIKE

All that you can be
Needs all that you have now
You know how to remain sane/you know how to touch
the ground
DON'T make me feel upset
And make me proud of that
And tell me what you know
I won't go
I'm waiting here

Time's a therapy

Change this world with me
You might now see what everyone is becoming
Change this world for me
You live in all that you created

THINK
WATCH
FIND
LEARN
CHOOSE
SET
HOLD
BREATHE

All that you can be
Needs all that you have now
You know how to be different/you know how to waste
the time

Please make me start again
To grow up day by day
But tell me what you see
I won't go
I'm waiting here

Time's a therapy

Change this world with me
You might now see what everyone is becoming
Change this world for me
You live in all that you created

All that you can be
Needs all that you have now
All that you can be
Needs all that you have now
All that you can be
Needs all that you have now
All that you have now
Is all that you have now

Change this world for me
All that you can be
Needs all that you have now
Change this world with me
Change this world with me
Change this world for me
Change this world for me
