[Flava]

I have a vision
Tell me what's wrong with that
X-ray so I can see whats guarn with that
I wanna help people in need
What and that's that?
You know me I don't want nothin back
Cause what these people need is british rap
So they can live their lives
Without fear of arch enemies
And Satan peeps it's a bird it's a plane
But its on the beat
Super Flava's on the street
Bounce back again
For the crowd again
I wanna stop bad guys in their tracks again
I wanna help old ladies carry bags for them
Coz, World Peace is what I intend
And I'm gonna lick it up when my powers end
Nobody in the world can see when I'm in the dark
Duckin out watchin friends in the park
When it's gonna start
And if it goes off I'm gonna blow up
And if I ain't seen then you're still gonna know it
Flava's presence is in the air
From here to America
From there to wherever
Identity never known
People think theyre clever
Cape crusader who goes there
Chicks wanna know but I don't really care
The end is near so have no fear, fear (So they ask us)

[Chorus - All]

Why do we fly so high
Flyin through the sky
Just live your lives
Don't mess with us
Why do we fly so high
Flyin through the sky
Just live your lives

Don't mess with us
We are the riders riders
Come flash your lighters higher
Don't retire, entire worlds on fire
We're the riders, we're the fighters
We are the riders riders
Come flash your lighters higher
Don't retire, entire worlds on fire
We're the riders, we're the fighters

[Reepa]

I've got split personalities
In my mentalities
One of me, two of me Japanese Chinese
So what do you reckon when you see me in my mask
Stoppin criminal tasks
I'm there then I move fast
So I be watchin you like a hawk
You think I will stalk
Why people startin to talk about what we do at night
Did we give you a fright
When I was stoppin that fight
Cause I stay out the light
So Reepa's gonna stay on the street
Serve and protect
Can you feel the effect as I connect
You bet another bad guy locked up
Another one behind bars
My crime stoppin ratin, I'm rated five stars
So at the end of the dayz
I can sit back and blaze
Another criminal down another criminal pays
If you see us in the shadows
Bad guys beware
Blazin' don't stop we'll arrest you there

[Chorus - All]

Why do we fly so high
Flyin through the sky
Just live your lives
Don't mess with us
Why do we fly so high
Flyin through the sky
Just live your lives
Don't mess with us
We are the riders riders
Come flash your lighters higher
Don't retire, entire worlds on fire
We're the riders, we're the fighters
We are the riders riders
Come flash your lighters higher

Don't retire, entire worlds on fire
We're the riders, we're the fighters

We're the riders (Ride...)
We're the fighters (Fight...)
We're the riders riders riders

[Freek]

I am a man that will win so spin
Burnin down crime like the dust in the wind
Never comin till the lights go dim
When Freek comes through the streets they shout so
loud "its him"
Help people's arses, save people's lives
Jackin them digits and jackin them knives
My crew's Blazin' and we're bringin them vibes
Like Robin Hood I get rid of bad guys
Coz man get smoked and man get jacked
As I breeze through the streets with the F on my back
To attack with my sack never lack
That's the end of my rap and that is that

(Time 2!)

[Spike-E]

Reload its time to bust rhyme
Hit 'em when I kill 'em
When I'm bustin n I'm robbin
And I'm still never copyin
Bustin never trustin
Hit 'em with the dust ting
Come mans who wanna swing
I'm a bad man from down the down town
Who wanna check the SENSATIONAL sound
Hit the ground
Got a blood hound
Fangs so sharp they rip roooaar
Let him off the muzzle
In a bit of trouble
There goes your click
Ha-ha-ha, I'm a bad chatter 'bout to chat fatter
T-Tom B, no one's better
Gettin kinda hotter
Tongue-tied knotter
Saalecta (ta ta)

[Rocky B]

Beanies they call me B Rocka (B Rocka)
Because I rough up and hot up
Any top shotter
Tottenham, Chingford all be the manors

Pettchey ten LT
Who's nanger
Every man dem on the street
Wanna bang her
If they do then Rocky B's in da slammer
Juice my girl on the regular (Yeah)
Pass me my nokia *ring ring* (Hello)
Blaze like a pro cause I've got pure stamina
Blaze hensy coz I don't blaze amon nah
Man of steel I'm the gangsta of lead
Blaze all night so my eyes blood red
All that crap you said goin over my head
I've let you live once not gonna do it again
Coz I'm the cat, you'll better stay clear of
The cat bad mans be scared of

[Chorus (x3) - All]

We are the riders riders
Come flash your lighters higher
Don't retire, entire worlds on fire
We're the riders, we're the fighters
We are the riders riders
Come flash your lighters higher
Don't retire, entire worlds on fire
We're the riders, we're the fighters
We are the riders riders
Come flash your lighters higher
Don't retire, entire worlds on fire
We're the riders, we're the fighters
