Of all the clubs in all the towns
You had to walk in mine
Of all the girls in all the clubs
You had to look so fine
Of all the sets on all the decks
You had to scream rewind
I'm so glad that I found you
Girl now, lady it's your time

I've got this girl and she's got
hold of me, I think I love her
don't want to be free, try to
tell her but why can't she see
that I'm made for her and that
she's made for me, I try to call
her she doesn't reply, all these
questions I want to know why,
all these reasons just please
justify all these feelings inside
I know I can not hide.

When they lock me up in a station
You wait till I got probation
Paid bail with no hesitation
We fought but no vexation
Dis tings not all penetration
Long time but no agitation
Wouldn't think I'd be in this situation
Me and you perfect formation

Now I never wanna see you cry
Always wanna see you smile
Never gonna let you down
Always gonna be around
Girl you make my world go round
Come on baby you be mine
Never seen you look so fine
Come on baby we got time

I know we belong together
Maybe you could be my lover

I know we could last forever
Come on baby let me show ya
I love you
What you gonna say what you gonna do
I love you
I wanna be there
I wanna hold you
I love you
I wanna see you smile
I wanna kiss you
I love you
It's been your time since I met you

My heart's broken and it's coz of you
Contemplating don't know what to do
Situation I cannot pass through
And I won't change my mind
As I'm so resolute
All this waiting is getting me down
Love of life it is you I have found
My heads spinning it goes round and round
So please let me tell ya just don't make a sound

Girl it's your time understand
Do you want me to be your man
Do you remember how this began
Together forever was the plan
As time went on and time over ran
We grew stronger we went hand in hand
Through all the past but still we stand
Take it further let our love expand

Girl I knew it from the start
Never gonna be apart
Do you have a Blazin' heart
Gonna save the last dance
Never gonna be far
Do you remember fast car
I remember when you laughed
Do you have to take the path

I know we belong together
Maybe you could be my lover
I know we could last forever
Come on baby let me show ya
I love you
What you gonna say what you gonna do
I love you
I wanna be there
I wanna hold you
I love you

I wanna see you smile
I wanna kiss you
I love you
It's been your time since I met you

Girl you mean so much to me
I know we are just meant to be
Things like this are factual
Cause this love I got is natural

So girl why you blank me every time I see ya
But ya still wear the ice gold tings that I bought ya
On my phone missed calls from your number
But wait the story gets deeper
Never answer calls when I ring ya
Always get the same old text
Saying Stridper I love ya
Tell the truth and ill learn to respect ya
Then maybe girl I'll believe ya

I know we belong together
Maybe you could be my lover
I know we could last forever
Come on baby let me show ya
I love you
What you gonna say what you gonna do
I love you
I wanna be there
I wanna hold you
I love you
I wanna see you smile
I wanna kiss you
I love you
It's been your time since I met you
