"Inject Me Now"

This is the other-side of yourself
The one you want cease to exist
The hatred - The lies - With anger multiplied
Creature - You have to see it to believe it

Concept of treason
Selling yourself away
Duration worthless factor
Our time will reach it's end
As we lie here - Die here - In duality forever

(Duality forever)

NOW!

I will make you believe
The terror wasted upon me
Till there is a slightest future at all
So fuck me, so hate me, inject me now

Inject me now

I will make you believe
The terror wasted upon me
Till there is a slightest future at all
So fuck me, so hate me, inject me now

Inject me now
