I've found a wall in my way
I don't want another problem
I'm saying that cause I am tired
Come and stop this fucking nightmare
Friend, I need you friend
Save me from my own
My friend
My friend
I can't with this
This is a hell
I've lost my way
I'm so fucked up
I'm so fucking broken
Feelings comes to my mind
Darkness
The sky turns black
Death comes to me
Friend, I need you friend
Save me (Save me from my own)
Friend I need you friend
Just help me
In this days of weakness
I need something that can
Brings me up
Rip my eyes
I can feel this pain no more
Friend, I need you friend
Save me (Save me from my own)
Friend, I need you friend
Just help me
Bring me to life
Bring me the air
Bring me the silence
In this world of screams
World of Screams!
