The telephone swallowed the child.
This is the last time I say your name.
The crackle and hiss from the walls.
You smile like a catholic in heat.

Just don't forget what you've done.
Just don't forget.

This is the last time, that I say your name.
This is the last time, that I say your name.
This is the last time, that I say your name.

Forget the fuck away from me.
Forget the fuck away from me.
Forget the fuck away from me.

The child is sleeping under the wires.
The child is sleeping under the wires.
The child is sleeping under the wires.
The child is sleeping under the wires.
The child is sleeping under the wires.
