Don't you understand, don't you understand that this is  
only a memory?

Don't you understand, don't you understand that this is  
only temporary?

Hear me out, hear me out.  
I've found another way out.  
Hear me out, here me out.  
I've found another way out.

I wish to be, I wish to be that single moment to change  
your life.

I wish to be, I wish to be that single moment to change  
your life.

You made me say goodbye, you made me say  
goodbye.  
You said I was a lie. Just see this through my eyes.

Goodbye.
