[Translated]

I never even thought that you would leave me

I hated the words that I couldn't love you
But you have to go to a place
Where you can't come back where I can't see you
What can I do?

*Even though I'm leaving you there
Even though I can't ever see you again
I know that you are the one that
I believe in my life
Even though my heart left yours...

But I hope that your image will still remain in me
Even if you completely change my love will still be you
But if I can't see your image, can't see you
I don't have any courage to do so
But you have to go to a place
Where you can't come back where I can't see you
What can I do?

Repeat *

I beg you to forget me and live your life
I don't have any courage to do that myself
I hope that you won't be in pain because of me
I'm leaving you here like my heart
Even though I can't ever see you again
I know that you are the one that
I believe in my life
I hope you don't know how I feel right now...

Repeat *
