*Think hard. Even if you attack me with a hard heart
It's no use LUZ CONTROL
Free to misunderstand, free to dream
I hope her heart is coming to me

Lets think one by one to the beginning
What should we slightly scratch up first?
You didn't care when you saw my flyest looking car
You were scared to even go on a bicycle
You're like an old lady, how can you ever love?
If you don't like it that much I could've thrown it out for
you
You don't get the idea and I feel bad for you
If you get it, then go away

Repeat *

Close your smelly bad mouth
You don't know women
If you just pick that girl's heart in whatever way you
want,
You'll get smacked and you know how that feels
You don't know me yet, if you do, everyone will be
shocked
If you were a casanova then I'd live happily
When you spread out your money and tempted that girl
I enjoyed that idiotic expression you had
When you got it all taken away. Get down on your knees
boy.

Repeat *

(rap)

You're so pathetic
No one can stop you from being the way you are
Foolish boy, you drank from your mama's breasts
And you call yourself a tough gangsta
If you go with confidence
Then you just get your big nose hurt
Know this. You're three -four years younger.
Call me noona (older sister) damnit

Think hard. Even if you attack me with a hard heart
It's no use LUZ CONTROL
Free to misunderstand, free to dream
I hope her heart is coming to me
Think easily
In front of your eyes, that girl likes me
She's free to do whatever she wants
I'm free to do whatever I want
So her heart will only be towards mine
