[Translated]

Let me go back to your side again  
I hate those cold words that aren't even from your  
heart  
Give me that smile you gave me the first time we met  
Look at me again (look at me)  
Forgive me because I can't say anything to you  
I'll stay by your side  
FOR YOU... FOR YOU...  
I wont make you cry.  
This I promise you...

\*Once, just once know my hurting heart  
My heart that goes toward you, that loves you  
I can't be happy without you  
YOU DON'T HAVE TO BE ALONE  
Just know my love for you...

I fell in love with you without realizing it  
I didn't know, I forgot that you'd be hurt  
But my heart not once left your side Believe my words...  
please, I love you so much  
I'll stay by your side  
FOR YOU... FOR YOU...  
I wont make you cry...  
This I promise you...

Repeat \*

I never loved someone else  
I never didn't have your love  
I never thought of loving another person...
