Are you trying to leave again?
I'm not ready yet
I want to ask you why you are leaving me
But I can't say anything because
I already know how hard it's going to be like last time
I couldn't even say anything
And I just looked at you with tears flowing down my
face

*You're not even looking back
You want to leave me faster
You're leaving my side again
Did you ever love me?
Or were you getting ready to leave me the whole time?
If you were getting ready to leave me
Then why did you come back again?

Are you in pain again?
After I let you go
You comforted me saying that It'll be alright
Should I wait till I forget you?
I think I didn't want to be in pain again after you leave
So when you turned away I tried to hide the tears
Asking you to return to me...

Repeat *

You're making me cry again
If you're acting like this because you hate me
Then forget me and...

Leave to a further place
So that I can't ever find you again
I want to believe that it never happened in the first
place
I want to let you go now
I don't want a hard love anymore
If you love me just a little bit,
Do as I tell you...
Forget me.
