[Translated]

I forgot that I let you go yesterday
Why did I block you again?
I'm going crazy because I couldn't even say a quick
goodbye
I'm seeing you turned back again
I don't want an unsatisfactory separation
It's all past events... don't leave...
If only you knew that I still look up to you...

*Please just say that one word, not to leave
Look at me for a second, give me some time to talk
Not yet... Hold me again, no matter how I look like
I can't give you up

I forgot the miserable yesterday
I just missed you so much
I just see your cold face
In which I said my last goodbye to
Is it that dead? Do you want my love to end?
If it's like that, then erase everything...

**Please just say that one word, not to leave
Look at me for a second, give me some time to talk
Not yet... Hold me again, no matter how I look like
It doesn't matter, if only you are here...

(RAP)

Yea, I know I didn't deserve the past times
I had a different conversation with
You who'd be angry everyday
I tried to tell you in a different time
But I couldn't get the words "don't leave" out of me
I regret it so much... don't say that it's dead
In my heart the words, "Can't you look up to me
Who you are erasing from your heart?" are burning
fiercely...
