[Translated]

Like the light from the sky I dream about you  
And when I open my eyes you aren't there  
Every time at that place, at that time  
That feeling inside my mouth  
I'll meet you again today because I know the way you  
go  
I want to stop dreaming now  
I want to stop imagining now

\*I'm going to hold the flower and smile brightly  
And the snow will be blowing about in our faces  
It's going to be awkward, it's hard to do  
But I can't turn back alone any longer  
I have to tell you, ask you what you think of me  
Tell you that I liked you since before  
I can't stand no more... you know my love...  
I'm going to tell you about my love

Again, I lost my chance today  
It's too bad seeing your back turned  
Your fragrance that reaches my nose,  
I grieve for that everyday  
Do you hear the sound of my heart beating?  
Why, why can't I tell you?  
I want to see myself in your beautiful eyes

Repeat \*

Today you are in front of me again  
My heart is heavy as I call you  
I love you

My heart in your heart  
I'm going to pray that it'll go on smoothly  
I'm going to confess to you  
I have to tell you, ask you what you think of me  
Tell you that I liked you since before  
I can't stand no more... you know my love...  
I'm going to tell you about my love
