Let's take this underground
Where all the boys and girls can jump around
Get on the floor, we're going out of town
Let's take this underground

The boys go wild for the girls got style
If it's wet, get it wetter
Wetters better when they're down
Let's take this underground
Let's take this underground

Now I can't see just what you see in me
I guess you've got no better place to be
The night's still young, and we're still fancy free
So take this line, why won't you dance?

Make you're mind up, what's it meant to be?
And I'm tied up, so set my body free
The night's still young, and we're still fancy free
So take this line, why won't you dance?

Let's take this underground
Where all the boys and girls can jump around
Get on the floor, we're going out of town
Let's take this underground

The boys go wild for the girls got style
If it's wet, get it wetter
Wetters better when they're down
Let's take this underground
Let's take this underground

Waahoooo (wooooooah)

Waahoooo (wooooooah)

Waahoooo (wooooooah)

Waahoooo (wooooooah)

Waahoooo (wooooooah)

Waaahoooo (wooooooah)

Waaahoooo (wooooooah)

Waaahoooo oh oh oh oh

Now I can't see just what you see in me
I guess you've got no better place to be
The night's still young, and we're still fancy free
So take this line, why won't you dance?

Make you're mind up, what's it meant to be?
