Now I wake up in my new favorite city  
Some summer day huntin' for somethin' that's pretty  
Trouble is I'll be gone by nightfall  
And she'll be thinking what the hell'd I do that for (what  
the hell sean! )  
But I'm not tryna get you plaaaayed  
You'd be the kinda girl I wanna see another day  
We just gotta make quick moves  
So don't delay  
Cuz there's plenty to pick through

But you are the one that caught my eye  
And I'll be the best that you will find  
We just gotta put a rush on it  
When you get the feeling in your bones  
I'll call your name like ale alejandro  
We just gotta put a rush on it  
We're like an item on QVC  
And this offer ends in 3, 2...

I know that you're feelin' me baby I can feel it  
Put a rush on it, p put a rush on it  
We don't have the time I'm leavin' here tonight yeah  
Put a rush on it, p put a rush on it

Now it's kinda hard to build chemistry  
When you jump city to city to city like me  
So like james cameron cast titanic  
I'm holding auditions for lead positions  
Well I guess there'd really only be one  
Well maybe two if she's got a friend that's fun  
Like denise and neve playin in my bed  
Wild things goin' through my head

But you are the one that caught my eye  
And I'll be the best that you will find  
We just gotta put a rush on it  
When you get the feeling in your bones  
I'll call your name like ale alejandro  
We just gotta put a rush on it

We've only got one shot  
Do not miss your chance  
Do NOT miss your chance!

I know that you're feelin' me baby I can feel it  
Put a rush on it, p put a rush on it  
We don't have the time I'm leavin' here tonight yeah  
Put a rush on it, p put a rush on it

So we aint got all night  
But we can take all day  
We'll dance on the phone lines  
If we can put a rush on it  
We don't have the time I'm leavin' here tonight, tonight  
yeah  
Put a rush on it, let's put a rush on it

When you get the feeling in your bones  
I'll call your name like ale alejandro  
We just gotta put a rush on it

I know that you're feelin' me baby I can feel it  
Put a rush on it, p put a rush on it  
We don't have the time I'm leavin' here tonight yeah  
Put a rush on it, p put a rush on it

So we aint got all night  
But we can take all day  
We'll dance on the phone lines  
If we can put a rush on it  
We don't have the time I'm leavin' here tonight, tonight  
yeah  
Put a rush on it, let's put a rush on it  
Let's put a rush on it, yeah  
We'll put a rush on it
