This is the night
Changing my life
Don't wanna see your eyes
See your eyes no more
Let me free tonite
Oh yeah

You and the night, by my side, close your eyes
And you stop thinking about your new love
Leaving my heart beating so fast
To get asleep is so hard when I'm dreaming of you
This is my life, never sleep in the night
And only music is what you love now
Never before I felt so sad to go
Leaving you behind that door

This is the night
Changing my life
Don't wanna see your eyes
See your eyes no more
Let me free tonite
Oh yeah
This is the night
Feelin alive
I wanna feel alright
Let me free tonite
Let me free tonite
Oh yeah

This is my life that was leavin the night
And only music is what you love now
Leaving my heart beating so fast
To get asleep is so hard when I'm dreaming of you
This is my time I don't wanna combine
And this is possible yes without you
Never before was so happy to go
Leaving you behind that door
