I'd love to find the cure  
The only thing that's real  
To go back in time  
See what I left behind  
Time fades away  
I wish I could find  
the words I couldn't say  
Everything has changed  
Everything's rearranged  
But when I think of you, think of you  
you are the only one in my mind  
It's where you should be  
You are the only one in My life  
It's where you should be  
where you should be

I'd love to find the truth  
the only thing I want to feel  
To try to revive all the things we let die  
Time steals away  
I wish I could hide  
the moments we let get away  
Everything has changed  
Everything's rearranged.  
But when I think of you, think of you  
you are the only one in my mind  
It's where you should be  
You are the only one in my life  
It's where you should be  
where you should be

Lift me up to see  
where I long to be

I'd love to find the only thing that's real  
(lift me up to you)  
to go way back in time and feel  
(you go back in time to feel)  
I'd love to find the truth, the only thing that's real  
(where I long to be)  
To try to find, try to remind you

(to feel the way you need to feel)  
I need to try I need to find a way  
(I'll give my heart to you)  
To find the words, find the words to say  
(You find the words to say)  
I've got to know, I've got to know what's real  
(where I long to be)  
To make it show make sure that time doesn't steal the  
moments all away  
Help me find, help me find the words  
(I'll give my love to you)  
To try and hide the time we let get away  
(we let time get away)  
I'll give my love to you
