

## Seahorses "Hello"

Visit "[Hello](#)" on MotoLyrics.com

I know the wind and the rain  
And the lightning  
And the thunder's filled my brain  
Have I change? I'm asking you

All I know is the sun and it's shining  
Way above my cloud  
So high, it can't be found  
We all look around

For the times we left behind  
Oh well, never mind  
I'll take you there tomorrow

And I'm sorry if I seem  
To always vent my spleen  
It's not the path I choose to follow  
So hello

And I hope you're still my friend  
I think I'm on the mend  
And you know I don't mean to offend  
I wish we all could fly

All I know is the sun and it's shining  
Way above my cloud  
So high, it can't be found
