

Seals And Crofts "Fire and Vengeance"

Visit "[Fire and Vengeance](#)" on MotoLyrics.com

Outside it looks like vengeance
Outside it looks like fire
But inside it is mercy and inside it is love, love

Outside it is raining, outside it is cold
But inside love's explaining something to your soul,
love
Let me tell 'bout love, when you got love
Everybody loves one another and everything is alright

Today's a day for planning, a day for you and me
The changes of tomorrow will surely set us free
To love, lo, lo, love
Let me hear you say love, it's alright

I want you to know, wherever you go
The world is a classroom
Just to teach your soul all about love, love, love

(Sotto voce)
Got to live, got to die, got to give, got to try
Love, lo, lo, love
Let me hear you say love

When you got love, everybody loves, one another
And everything is alright
Give me love, sweet love, I gotta have love, love, love,
love
Just a little bit of love
