Pull the stops out, watch my hustle
Would you believe I was once a
Would you believe I was even as shy as a child
It's so hard for the mind to fathom, so don't try

I feel like tripping the light fantastic
I've never been more enthusiastic, my mind
I'm a stone gladiator on a mood elevator
In the thick of the fight, I just smile
Pull the stops out, watch my hustle

I feel like tripping the light fantastic
I've never been more enthusiastic, my mind
I'm a stone gladiator on a mood elevator
In the thick of the fight, I just smile
Pull the stops out, watch my hustle
