

## Seals And Crofts "Kite Dreams"

One day follows another  
Chase one and then the other  
Kite dreams

Butterflies lazy in April  
Floating 'round, down in the meadow  
Silver skies and all the world far, far below

Look up there in the sky, way up there in the sky  
You don't have to be high  
I know a place where kites have been  
Where we can laugh and ride the wind

Ooh, we are dreamers, colored streamers in the air  
Life's upside down, it's upside down  
You go across, I'll go around  
Ooh, when it's over I can tell you what I found
