Sit down on the marble floor
Strike that pose for me once more

Let the time stand still
While I catch my breath
You reveal your beauty
I will do the rest

I wanna paint you in the north light
We can do this together
I wanna paint you in the north light
Keep this moment forever

Step out on the balcony
Wear the golden earrings
Make them dance for me

Let the time stand still
You just be yourself
Now, release your emotion
I will do the rest

I wanna paint you in the north light
We can do this together
I wanna paint you in the north light
Keep this moment forever

I wanna hold you
Look into your eyes
You excite me always

I wanna love you in the north light
Keep you with me always

Reach out
Let me see you stare
Let your hair surrender
To your shoulders bare

I wanna paint you in the north light
We can do this together
I wanna paint you in the north light

Keep this moment forever

I wanna hold you
Look into your eyes
You excite me always

I wanna love you in the north light
Keep you with me always
