Out the window  
Look what's happening  
In my prism watching day by  
(Day by day)  
In my humor  
Kiss and make up friend  
Out the window  
Oh look what's happening  
Give my time away  
Give me all the time I pay  
Kiss my cross away  
I break down doors my candle whistles  
Hello, hello, hope you're feeling fine  
Hello, hello, hope you're feeling mine  
Hello, hello, hope you're feeling fine  
Hope you're feeling time  
Out the window  
Bring me back my rose I gave away  
In a picture  
A freckle and a famous feature  
She's not smiling  
Give my time away  
Give me all the love you need  
I want to watch you bloom and breathe  
Kiss my mouth I hear you whistle  
Hello, hello, hope you're feeling fine  
Hello, hello, hope you're feeling mine  
Hello, hello, hope you're feeling fine  
Hope you're feeling time  
Whistle down the wind  
(Whistle softly)  
Whistle down the wind  
(Whistle softly)  
Kiss and be my friend  
(Whistle softly)  
Whistle down the wind
